Journal level metrics continue to be an important part of the basket of metrics, complementing new and alternative metrics to provide a multi-faceted view of a journal’s impact. On Scopus, you will find an evolving and expanding suite of journal metrics that go beyond just journals to include most serial titles, including supplements, special issues and conference proceedings. Freely available on Scopus you will find CiteScore metrics (NEW), SCImago Journal Rank (SJR) and Source Normalized Impact per Paper (SNIP).
NEW SUBSCRIPTION BAYANATI

Bayanati: A database from the Institute of Banking Studies, Kuwait; to access this database, you will need the following log-in:

User name: GUST
Password: GUST2017

What’s in Bayanati?

- Balance sheets and income statements of banking sector including Kuwaiti conventional and Islamic banks
- Balance sheets and income statements of Kuwaiti financial companies as well as non-financial companies
- Summarized financial data of GCC banks
- Corporate Snapshot - Financial and Stock market data

Important Note—Browser Issue: The Library resources (Databases, Discovery Service, Online Catalog, etc.) are fully functional; we have tested each database individually both inside and outside campus. The non-accessibility of resources, however, are purely due to browser issues. If you are unable to access Library resources in a particular browser, say for example in Firefox, please try using another browser such as Chrome or Internet Explorer. Clearing the History, and Cache also helps. If you still face the accessibility issue, please contact the IT for assistance.

NEW SUBSCRIPTION: GEMBA ACADEMY

GEMBA Academy: This resource provides access to Schools of Lean and Six Sigma; in order to access this database, you will need the following log-in: User name: library
Password: lean

What does this resource include? HD videos on topics like SS, Practical Problem Solving, Project Selection, Measurement System Analysis and more, plenty of quizzes to gauge comprehension, downloads, including worksheet templates and calculators Lean Enterprise Assessment and Strategy Kit and the exciting Gemba Live! series that featuring on-site tours, interviews, and webinars.

   c) Only if you cite the original source

Answers to quiz on previous issue: 1.a, 2.c, 3.c, 4.b, 5.a
LITERATURE REVIEW - A STEP BY STEP GUIDE

LITERATURE REVIEW (Continuing series)
A good literature review demonstrates that you know the field, justifies the reason for your research and allows you to establish your theoretical framework and methodological focus.

STEP 4 — Evaluate your readings

Authority:
Who conducted the research?
Is the author an authority in their field of study?
What evidence is there to support this?

Validity:
Where has the research come from?
Is it from a valid source?
Is it peer reviewed or has it been passed by an editorial panel?

Accuracy:
What is the literature about?
Is the literature accurate and how do you know?
What makes the literature believable? Is the literature from credible sources?
